POTENTIAL D-STIP PROJECTS

D-STIP PROJECTS

PROJECT NAME	LIMITS	CONSTRUCTION PROJECT DESCRIPTION	DEVELOPMENT PROJECT DESCRIPTION	ESTIMATED DEVELOPMENT PROJECT COST	COMMENTS	MAP KEY #	NOW TELL US WHAT YOUR PRIORITIES ARE
Beltline Highway	River Road to Coburg Road	Widen to 6 lanes	Facility Plan Study	$2,000,000	Facility Plan Study is on contrained list in TransPlan.	D12	$ MEDIUM $
Interstate 5 Interchange Study	Willamette River to 30th Avenue	Facility Plan Study to determine needed improvements	Refinement Plan Completion	$750,000	This study is on the TransPlan constrained list. It would address the interchanges and on-off ramps at Franklin, Glenwood and 30th Avenue.	D4, D5, D6	MED. LOW
Interstate 5	At Coburg interchange	Reconstruct interchange	Environmental Assessment	$300,000	This project is not in TransPlan but is now within the TMA boundary and is in the Coburg TSP. An interchange refinement plan has been developed.	D7	NONE. Dead Slow Intersection
Eugene-Springfield Highway (126)	at Q Street/Pioneer Parkway	Interchange improvements	Environmental Assessment	$500,000	Project is on future list in TransPlan, with corridor study (I-5 to Main St.) on constrained list.	D1	BLOODY RED HOT
Eugene-Springfield Highway (126)	at Main Street	New interchange to replace at-grade signalized intersection	Environmental Assessment	$500,000	Project is on future list in TransPlan. A planning-level analysis is included in current study of Eugene-Springfield Highway from 42nd St. to Main St.	D2	VERY HOT
Franklin Blvd.	Jenkins Dr. to Mill Street	Urban standards improvements	Environmental Assessment	$200,000	Project is on future list in TransPlan. Recent planning work completed as part of nodal development planning in Glenwood.	D13	LOTS OF COORDINATION -HOT-
Interstate 5	at Franklin Blvd. and Glenwood Interchange	Construct new interchange	Environmental Impact Statement	$2,250,000	Project is on future list in TransPlan. Project is under consideration in conjunction with Willamette River bridge replacement project. I-5 interchange study is on TransPlan constrained list.	D5, D6	$ $ MEDIUM $
Eugene-Springfield Highway (126)	at 52nd Street	New interchange to replace at-grade signalized intersection	Environmental Assessment	$500,000	Project is on future list in TransPlan. A planning-level analysis is included in current study of Eugene-Springfield Highway from 42nd St. to Main St.	D3	WARM
Eugene-Springfield Highway (126)	I-5 to Mohawk	Widen to 6 lanes	Environmental Assessment	TBD	Project is on future list in TransPlan, with corridor study (I-5 to Main St.) on constrained list.	D9	$ $ HOT $$
Interstate 5	at 30th/McVay Highway	Reconstruct interchange	Development Work Reflected by I-5 Interchange Study Shown Above	NA	Project is on future list in TransPlan. I-5 interchange study is on TransPlan constrained list.	D4, D5, D6	WARM
Beltline Highway	River Road to Delta	Widen to 6 lanes	Development Work Reflected by Beltline Study Shown Above	NA	Project is on future list in TransPlan, with facility planning study on constrained list.	Part of D12	LOW
Interstate 5	I-105 to Highway 58	Widen to 6 lanes	Further Development Work Not Needed at this Time	NA	Project is on future list in TransPlan.	D10	SOMEDAY $$$ VERY LOW
Interstate 105	Delta Highway to Coburg Road	Widen to 6 lanes	Further Development Work Not Needed at this Time	NA	Project is on future list in TransPlan.	D11	LOW
Interstate 105	Coburg Road to Interstate 5	Widen to 6 lanes	Further Development Work Not Needed at this Time	NA	Project is on future list in TransPlan.	D8	MEDIUM $$$
