

**Agenda Item Number  
15.A.**

**Community Safety Program, State Budget  
Reductions---Update**

**Presenter:** Byron Vanderpool

**Action Recommended:** None. Information Only

**Background:**

At its January meeting, the Board was given an historical overview of LCOG's involvement in the development and operation of the Public Safety Coordinating Council (PSCC.) In March, LCOG's Community Safety staff will provide the PSCC Policy Committee with a recommendation for the on-going structure and administration of the PSCC. This report will also be brought to the Board.

HB 5100 has reduced State funding to Lane County in the current fiscal year. The situation is extremely fluid but reductions in the Community Safety program will need to be made. This report will describe these reductions and their impact on the delivery of LCOG's Community Safety support services.
