

## **Agenda Item Number 13**

### **LCOG Services, July Board Planning Session Design**

**Presenter:** George Kloeppel

**Action Recommended:** None

**Background:**

The committee that has assisted staff and our facilitator in designing the July 27 Board Planning Session in Cottage Grove suggested that time be allocated at the June meeting of the Board for an exposition of LCOG’s organization and services—just “the basics.” In response, three short presentations have been planned. The first will be from George Kloeppel, Executive Director, on the agency’s organization and purpose. Then, Byron Vanderpool, Technology Services Director, will address the range of planning and technology services available to local governments (see attached summary). Finally, Kay Metzger, S&DS Director, will provide a briefing on LCOG’s roll as an Area Agency on Aging for the Lane County region.

The presentations will be followed by questions and answers and discussion. Also attached is a Membership Survey that Board members are urged to complete and return. The input provided will help us polish the design for July in order to make the best use of the available time.
