January 6, 2005

To: Metropolitan Policy Committee  
From: Paul Thompson  
Subject: Item 5.b: I-105 Preservation Project Update

**Action Recommended:** None. Information only.

## **Issue Summary:**

Interstate 105 in the Eugene-Springfield metro area is scheduled to be reconstructed and enhanced with safety improvements during the spring and summer of 2005. This is the first time since the highway was constructed in 1967 that it has undergone major work. More than 60,000 vehicles use this highway each day and significant traffic impacts are anticipated. ODOT has requested that a standing item be placed on the MPC agenda through August 2005 to communicate project updates to MPC. An ODOT representative will provide a current status report on the project at the January 13, 2005 meeting.
