February 2, 2005

To: Metropolitan Policy Committee  
From: Paul Thompson  
Subject: Item 4.a: I-5/Beltline Project Update

**Action Recommended:** None. Information and discussion only.

## **Issue Summary:**

I-5/Beltline has been the highest priority project in the metropolitan area since the mid 1990's. ODOT is scheduled to bid the initial work on this project in December 2005, with construction scheduled to begin in 2006.

ODOT will present a project update to MPC and seek input on the bike pedestrian bridge over I-5, an important multi modal link within this project. A project information fact sheet is attached; additional handouts will be available at the presentation.
