Discussion

At the December 8, 2005 MPC meeting, MPC directed staff “to prepare an amendment to the FY05-07 Metropolitan Transportation Improvement Program that bundled the time sensitive projects through June 2006 into a single motion.” As a result of that direction, several agenda items at the January and February MPC meetings have either reported on administrative amendments approved by TPC or have resulted in MPC approval of non-administrative amendments. On February 23, 2006 TPC unanimously approved one additional administrative amendment to the FY05-07 MTIP, related to Eugene’s planned North Bank Trail improvements. This amendment merely combined the two previously programmed MTIP projects on adjacent sections of the North Bank Trail into one programmed project. The amendment did not result in any change in funding, funding source, scope or timing. Details on the amendment are posted on the internet at http://www.lcog.org/meetings/tpc/02232006/2006_05_Northbank_Amendment.pdf. Staff will be available at the March 9th MPC meeting to answer questions regarding the amendment if needed.
