Use additional pages to answer questions if necessary.

1. Why are you interested in serving on this committee?

I am the chair of the Citizen Planning Committee for the Whilamut Natural Area of Alton Baker Park, and have had several occasions to attend MPC meetings on transportation-related topics, such as the proposed I-5 / Franklin interchange expansion, and, prior to that, the construction of the temporary replacement I-5 / Willamette bridge.

My committee has worked well with ODOT during the design and construction phases of the temp bridge – including co-conducting tours of the worksite and surrounding parkland with Bob Pirrie – and I have a great interest in seeing that the same spirit of trust and cooperation prevails again during the planning and implementation for the permanent replacement bridge.

2. Occupation (if retired, please indicate): Editor.

3. Employer: Self-employed,

(OVER)

4. Please describe those facets of your background/experience which you feel may be useful for membership on the Citizen Advisory Committee. Include academic, vocational, and skill training; degrees and certification; licenses, etc.

I have a degree in journalism from the UO J-school. Obtaining that degree requires a student to take classes in a wide variety of other departments. The Urban Geography classes given by Prof. Everett Smith, later chair of the Lane County Planning Commission, were pivotal in my interest in planning and transportation.

5. Please list any relevant organizations or groups of which you are a member (i.e. Engineering Society, neighborhood group, Chamber of Commerce, etc.), and any boards, committees, or commissions to which you are appointed or have previously served.

Member of City of Eugene Culture / Leisure Planning team, 1984-86; Board member, Oregon Mozart Players, 1988-90; Fairmount Neighborhood Assoc. Treasurer 2005-present; Fairmount Neighborhood Assoc. I-5 / Franklin interchange study committee chair 2005-present; Member of Citizen Planning Committee for the Whilamut Natural Area of Alton Baker Park, 1998-2004 (vice-chair 1999-2002, chair 2002-2004), 2006-present (current chair). Fairmount Neighborhood Walnut Mixed Use Center Study Committee – editor of FNA documents submitted to Eugene Planning Commission.

6. Why Recruit? An important part of the Citizen Advisory Committee is that it represents diverse experience and interests. The following categories represent a broad range of interest areas. All residents are encouraged to apply regardless of their expertise or transportation interest. Please check the interest areas that reflect the perspective you would bring to the committee.

7. Please comment specifically on your experience and interests related to the interest areas you checked in question 6.

I was instrumental in successfully advocating for the maintenance of the very heavily-used bike path on the N. shore of the Willamette River through Alton Baker Park during the construction phase of the temp I-5 bridge. I understand land use issues and am sensitive to striking a balance between rights of landowners and the public interest. My previous answers have spoken to Natural Environment, Neighborhood, and Parks/Trails issues.

Use additional pages to answer questions if necessary.

1. Why are you interested in serving on this committee?

I have been studying transportation issues for several years. I am especially interested in pedestrian and bicyclist issues, and transportation planning. I focused on transportation issues as a student senator at Lane Community College, and realized many transportation needs of students are overlooked. I am interested in serving on this committee in order to provide a student perspective, and the perspective of a pedestrian/bicyclist/transit-user.

2. Occupation (if retired, please indicate): Student, Server

3. Employer: 1HOP on Broadway, student at University of Oregon

(OVER)

4. Please describe those facets of your background/experience which you feel may be useful for membership on the Citizen Advisory Committee. Include academic, vocational, and skill training; degrees and certification; licenses, etc.

I've done academic research on transportation issues, served on the Facilities and Sustainability Councils and worked on other transportation/parking issues at Lake Community College.

5. Please list any relevant organizations or groups of which you are a member (i.e. Engineering Society, neighborhood group, Chamber of Commerce, etc.), and any boards, committees, or commissions to which you are appointed or have previously served.

Facilities Council at L.C.C. (2004 to 2005)
Sustainability Council at L.C.C. (2003 to 2005)
I have also participated in Eugene Bicycle Coalition meetings.
Senator at L.C.C., with a focus on transportation issues (2004 to 2005)

7. Please comment specifically on your experience and interests related to the interest areas you checked in question 6. I intentionally do not own a car, so I walk, bike, and ride the bus to go to school, work, and shopping. I have been a student at L.C.C. (2003-2005), and am currently a student of political science and planning, public policy, and management at U of O.

8. Is there any other information related to your serving as a member of the MPO Citizen Advisory Committee that you'd like to tell us about? I have been interested and studied transportation issues for several years - specifically transportation alternatives to cars. I have been involved with student governments at L.C.C. and U of O, so I would bring an informed student perspective to this committee.

1. Why are you interested in serving on this committee?

My interest in various transportation needs and solutions has grown over the years which is due in part to being a participant of commuter solutions for years. I attended many of the initial BRAT community meetings and was enlightened by the prospect of enhancing commuting opportunities within the community. The needs vary and trying to meet the needs of many would be a challenge that I would appreciate being a part of.

2. Occupation (If retired, please indicate):

Director of Human Resources and Organizational Development

3. Employer: Oregon Medical Laboratories

(OVER)

4. Please describe those facets of your background/experience which you feel may be useful for membership on the Citizen Advisory Committee. Include academic, vocational, and skill training; degrees and certification; licenses, etc. I have a bachelor's degree in Business Management. The most relevant experience I have is with my 18 years of experience in Human Resources which is primarily working toward finding solutions for a variety of issues. In my role as Director of HR, I am continually working on addressing various individual needs in a way that will benefit the individual as well as the organization.

5. Please list any relevant organizations or groups of which you are a member (i.e. Engineering Society, neighborhood group, Chamber of Commerce, etc.), and any boards, committees, or commissions to which you are appointed or have previously served. I am a member of the Society of Human Resource Management, as well as the local chapter. I am on the advisory board for Riverfront School and was on the Membership Council for PacificCascade FCU for several years until they dissolved the committee last year. I have been an active participant in the United Way Campaign for several years and have participated on the Fund Review Panel for the past two sessions.

6. Why Recruit? An important part of the Citizen Advisory Committee is that it represents diverse experience and interests. The following categories represent a broad range of interest areas. 7. Please comment specifically on your experience and interests related to the interest areas you checked in question 6. I am particularly interested in commuting solutions for employees due to my ongoing efforts to continually find transportation for our employees at OML, both in downtown Eugene as well as now in the Gateway Area of Eugene. I would also bring the Bicycle Advocate voice to the table as cycling provides a mode of transportation as well the potential to stay fit while commuting. Although I am not personally a person with a disability, I have had the privilege of working with folks that do have disabilities and would be an advocate for them as well. Additionally, as a citizen of the beautiful Willamette Valley, I also have an interest in our neighborhoods, natural environment, and maintaining our parks and trails.

8. Is there any other information related to your serving as a member of the MPO Citizen Advisory Committee that you'd like to tell us about? I would make a commitment to being an active participant.

1. Why are you interested in serving on this committee?

Despite the best of intentions and good efforts, at times the decision makers for public policy can become insulated from the public. This can happen when public input appears strongest from sources that advance their interests by their own economic advantage, or sources that are particularly strident. I want to advocate for various positions as appropriate, ensuring that minority positions are not steamrolled by the majority, yet also ensuring that the long-term good of the majority is not held hostage by vocal minority positions. I want to see the area long-term interests advanced.

4. Please describe those facets of your background/experience which you feel may be useful for membership on the Citizen Advisory Committee:

I have several years' broad-based technical experience in auto accident investigation while Risk Manager for the Romania Auto Dealerships. I have a keen insight into how road features can contribute to or reduce accidents, bottlenecks and efficiency, and in the public's perception of them. I have a life-long fascination and personal study of highway and other transportation systems, their history, development, successes and failures.

5. List any relevant organizations or groups of which you are a member and any boards, committees, or commissions to which you are appointed or have previously served:

Eight years service on the Laurel Hill Valley Citizens Executive Committee, including two years as Secretary and four years as Co-Chair.

7. Please comment specifically on your experience and interests related to the interest areas you checked in question 5.

Bicycle Advocate: My employment duties require the use of a car and effectively prohibit me from bicycle commuting, but I do bicycle on city streets and bike paths for recreation and for some personal transportation. I believe that the energy efficiency and low infrastructure costs of bicycle transportation make it a logic transportation alternative that should be supported. Even those persons who always use a personal car can benefit from having fewer cars on the road due to bicycle use.

Land Use and Neighborhoods: I have worked with various land use referrals from the City of Eugene to the Laurel Hill Valley Citizens neighborhood group. Land is a finite resource; its use should be intelligently planned, sensitive to both large and small scale community interests, economic logic, and stewardship. Transportation planning is key to good land use.

Parks/Trails: I am a long-distance runner and have extensive experience with Eugene's paths and trails for both running and biking.

School District/Parent: My son attends South Eugene High School, commuting almost exclusively by LTD.

8. Is there any other information related to your serving as a member of the MPO Advisory Committee that you' like to tell us about?

I have a unique perspective, knowledgeable and balanced due to a "green" personal philosophy and a life-long employment in the auto industry. I have the ability to see, understand, balance, and advocate for those positions that are appropriate in different circumstances, and I am not wed in advance to particular positions.

1. Why are you interested in serving on this committee?

I am the State Coordinator (a volunteer position) for the AARP Driver Safety Program (formerly 55 ALIVE). I have concerns about the difficulty some seniors have driving in our area due to confusing road conditions. Plus, the signage throughout the Eugene/Springfield area is often difficult to make sense of. In addition, mobility options for seniors other than auto driving need to be looked at, so that seniors have ways of getting around after they have stopped driving. One more concern: there are only four ways to cross the Willamette River in Eugene/Springfield. What provisions are being considered should one or more bridges be unusable due to a disaster?

2. Occupation (if retired, please indicate): Retired teacher.

3. Employer:

4. Please describe those facets of your background/experience which you feel may be useful for membership on the Citizen Advisory Committee. Include academic, vocational, and skill training; degrees and certification; licenses, etc.

My position as driver safety program manager for all of Oregon has given me a broad perspective of transportation issues. In addition, my experience shown in #5, below, has provided me with a considerable understanding of civic concerns.

5. Please list any relevant organizations or groups of which you are a member (i.e. Engineering Society, neighborhood group, Chamber of Commerce, etc.), and any boards, committees, or commissions to which you are appointed or have previously served.

When I lived in Thousand Oaks, CA, I was on that city's Citizens Traffic Advisory Committee and General Plan Review Committee (and several other citizens committees). I studied county operations as a member of the Ventura County 1998-1999 Grand Jury. I am currently on Springfield's Police Planning Task Force.

6. Why Recruit? An important part of the Citizen Advisory Committee is that it represents diverse experience and interests. The following categories represent a broad range of interest areas. All residents are encouraged to apply regardless of their expertise or transportation interest. Please check the interest areas that reflect the perspective you would bring to the committee.

Please see responses to question 1 and question 5.

8. Is there any other information related to your serving as a member of the MPO Citizen Advisory Committee that you'd like to tell us about?

I drive quite a bit and I am frustrated by streets that change names after a mile or so.

9. If appointed to the Citizen Advisory Committee, could you begin your term in May 2006?

- 1. Why are you interested in serving on this committee?** Transportation planning affects everyone, and most people take it for granted. Growing up in Seattle, I've seen countless struggles to affect change, and the myriad of reasons as to why positive change can seem so elusive. Looking further back, the "streetcar suburbs" that made places like Seattle & Portland so pedestrian & bike friendly are one model for how we can shape more liveable, less car-dependent societies. Basically, I feel passionate about doing what I can to help!
- 2. Occupation (if retired, please indicate):** Looking for work; just returned from Peace Corps
- 3. Employer:** in Niger, West Africa, where I was an Agriculture/Community Dev't volunteer for two years.

7. Please comment specifically on your experience and interests related to the interest areas you checked in question 6.

I'm an avid bicycle commuter / pedestrian; I live in Whitaker, one block from the train lines; I have a strong interest in Land use & Transportation; I'm a low-income renter; I'm currently studying herbalism & ethnobotany; I'm a heavy user of Eugene's rail network!

8. Is there any other information related to your serving as a member of the MPO Citizen Advisory Committee that you'd like to tell us about?

I'm looking into applying for a master's in urban planning degree @ The U of O and/or a Landscape Architecture degree, for fall '07.

1. Why are you interested in serving on this committee?

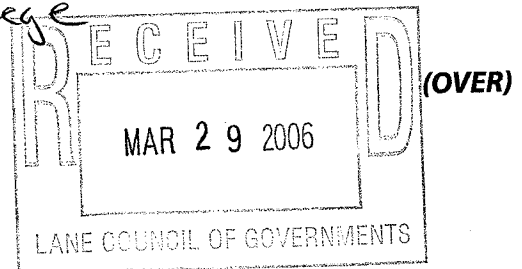

I am currently an Energy Management student at LCC with an intention to major in Public Policy and Planning Management at the U of O next year. This advisory committee falls directly in line with my ideals and interests as well as an overall career goal to reduce energy consumption through public planning at a local level.

Each person in the US on average consumes 8 liters of oil per day, while the rest of the world uses only 1 liter per day. Serving on a transportation committee, my ideas and input could help bring change in order to reduce our consumption.

2. Occupation (if retired, please indicate):

Student, Lane Community College

3. Employer:

4. Please describe those facets of your background/experience which you feel may be useful for membership on the Citizen Advisory Committee. Include academic, vocational, and skill training; degrees and certification; licenses, etc.

My training as an Energy Management student advocates problem assessment and solving on a macroanalytical scale, drawing possible options from all available resources by looking beyond traditional solutions.

5. Please list any relevant organizations or groups of which you are a member (i.e. Engineering Society, neighborhood group, Chamber of Commerce, etc.), and any boards, committees, or commissions to which you are appointed or have previously served.

I have previously served on an Eagle Scout committee; the "High Court" of boy scouts. Eligibility to serve on the committee requires one to first earn their own Eagle Scout Award. The committee, through their own scout experience, outlines application of scout training within the community by guiding the final projects of Eagle Scout applicants.

7. Please comment specifically on your experience and interests related to the interest areas you checked in question 6.

My intention in life has always been to live in a manner that is respectful to both others and myself, as well as the environment that supports us. With this in mind, I highly support the use of public transportation as well as bicycles. With fewer cars on the road, public resources can be diverted from cement parking facilities to development and maintenance of public parks and outdoor recreational sites.

8. Is there any other information related to your serving as a member of the MPO Citizen Advisory Committee that you'd like to tell us about?

This committee aims to solve contemporary transportation issues. In order to do so effectively, it must recruit innovative and new ideas from fresh thinkers. As an Energy Management student at LCC, I feel I can contribute just that.
