

July 1, 2004

To: Metropolitan Policy Committee

From: Tom Schwetz

Subject: Item 4c: Coordination of Metro-Area Transportation Projects – FY 2004-2006

Action Requested: None – Information Only

Issue Summary

There are several transportation projects within the MPO area scheduled for construction over the next 3 years. Many of these projects are on major facilities and, in some cases, are either adjacent to other projects or within the same right of way (for example, Springfield's sewer trunk line extension along Franklin, ODOT's overlay of Franklin and LTD's BRT Phase 1 project along Franklin). Staff from several agencies have been meeting to coordinate these projects to minimize the impact on the system and users. One of the primary purposes of the effort is to provide coordinated information to the public on the various projects.

Attachment 1 provides a listing of the various projects scheduled for construction over the next three years. At the July 8th MPC meeting, staff will provide an overview of the key coordination strategies and major projects scheduled for the next 3 years.
