To: Metropolitan Policy Committee
From: Tom Schwetz
Subject: Item 4g: Proposed MPO Consent Calendar

Action Requested: Provide direction to staff on addition of an MPO Consent Calendar to the MPC agenda

Issue Summary

To better facilitate the MPO portion of the MPC agenda, staff is proposing that an MPO Consent Calendar be added to the agenda. This calendar would work in a manner similar to those used by other policy bodies (the Councils of Eugene, Springfield, and Coburg, the Lane County Board of Commissioners, the LTD Board, and the Oregon Transportation Commission all make use of a consent calendar).

Items would be placed on the consent calendar that are considered routine or have previously been discussed by MPC and still require action. Similar to the practice of other policy bodies, MPC members would have the ability to remove items from the consent calendar and adding them to the main agenda for further action by MPC.
