From: Susan Payne

Subject: Item 4f.1.ii: Administrative Amendment to Central Lane MPO FY06-09 and  
FY08-11 Metropolitan Transportation Improvement Programs  
(MTIP)

**Action Recommended:** None. For information only.

**Discussion**

Lane Transit District (LTD) requested an administrative amendment to the operative FY06-09 and adopted pending FY08-11 Metropolitan Transportation Improvement Programs to add a new project which will purchase two replacement vehicles for LTD's rural service.

The funding for this purchase comes from a new federal funds grant received from ODOT's Public Transit Division. This project does not involve any funding decision or transfer on the part of MPC - the project is fully funded. The project does not affect the financial constraint or the air quality conformity of the MTIP.

The Transportation Planning Committee met on October 25 and unanimously approved the amendment.
