Re: Recommendation for IGA Work

Addressing "capacity" has been a priority for the PSCC since its inception several years ago. We are defining capacity as having the necessary resources and policies to effectively manage people charged or convicted of an offense in Lane County. This could be in a jail bed, community supervision, or community placement.

With this in mind and given Springfield's current work examining ways to manage their population, it seems an appropriate time for a thorough examination of the types of people that need to be managed and identification of the necessary policies and resources necessary to manage this population and still ensure community safety and enhance trust in our system for holding offenders accountable.

Our proposal is to have the PSCC Policy Committee, through the IGA, direct the Police Services Committee and the Community Corrections Committee to conduct the work necessary to find those answers and prepare recommendations for consideration by the Policy Committee. We propose this work be completed within the next year.
