Veneta City Administrator

July 1, 2002

To: PSCC Policy Committee

From: Bill VanVactor, County Executive

Re: Data Warehouse Development and Management

I was given the assignment to present to you a recommendation for supporting the continuation of work toward integrated information obtained from community safety information systems such as, but not limited to, the Area Information Records Systems (AIRS), the Department of Corrections (DOC), the District Attorney System (DA-CMS), the Juvenile Justice Information System (JJIS), and other systems containing information that could provide information to policy makers.

I would propose that Myra and Byron Vanderpool work on preparing a proposal for the oversight and coordination of this work. This could include reengaging the Information Systems Technical Team (ISTT) that developed a plan for integration several years ago. It would also include working with existing policy bodies instead of necessarily creating another one.

If this meets your approval, I will direct Byron and Myra to prepare a draft proposal for you to review at your July 29th meeting. Thank you.
